- The following vessels were being overhauled at the shipyard in Gdynia during the latter half of June and first half of July: the destroyer BLYSKAWICA, the school ship ZETEMPOWIEC, four submarines, two of which formerly belonged to the Soviets, and the auxiliary vessel MOTLAWA. This ship is an "older" passenger and cargo vessel which has been stripped of its machines. During the summer months, the MOTLAWA is generally towed to Hel harbor.
- During the navy summer training period (1 April - 30 September) the vessels participating in the training are based in Hel harbor. Landing exercises are often carried out. Larger type landing craft carrying four tanks and smaller type landing craft carrying two tanks have been observed participating in these landing exercises.
- The school ship ZETEMPOWIEC has a crew of 80 men and carried 260 cadets and recruits. On longer trips into foreign waters, the number of cadets and recruits is increased to about 400. The ship is used also as a hospital ship in the harbor.
- The school ship ISKRA has a crew of 18 men and can accommodate about 80 trainees.
